OF
RIVERS.

Note.—The exact length but of few of the principal rivers in the world have been ascertained. In this Table the lengths of the *Volga*, the *Nile*, and the *rivers of Asia* (with the exception of the *Cambodia*, *Jihon*, and *Tigris*), are given in the column of figures between the names and the proportional lines, and in the proportional lines, according to the lengths, compared with the *Thames*, as stated by *Major Rennel*. The statements respecting the others have been derived from various authorities. In the right hand column of miles, the lengths of the rivers of *Asia* and *America* are also given as estimated by *Malte-Brun*.
